

Presentation 15: WiMAX

Mr. Tim Hewitt, Head of Spectrum Policy, BT and Board Member, WiMAX Forum

A brief overview of the concept of WiMAX and the membership, work and structure of the WiMAX Forum™ (in which BT is an active player) will provide the context for a discussion of the global spectrum policy goals of the WiMAX forum. A description of the frequency bands being targeted for WiMAX Forum Certified™ equipment will be offered and the main regulatory challenges being faced within each such band will be explored. The importance of WiMAX as seen from the perspective of a major European operator will be a theme within the presentation.
