

## **Presentation 19: Regulatory Framework for BWA in Brazil**

Mr. Maximiliano Salvadori Martinhão, Spectrum Engineering Manager, Anatel

This presentation will describe the present situation of the Broadband Wireless Access Brazil focusing in the regulation in a set of various frequencies ranges (such as: 2.4 GHz, 2.6 GHz, 3.5 GHz, 5 GHz, 10.5 GHz, etc.). Additionally, it will be discussed the need to promote spectrum efficiency so that future applications can be smoothly accommodated. The presentation will also devote to explore the BWA perspectives in Brazil, in particular to the fact of auctions to come and result of previous spectrum auctions. Finally it will be discussed the role of licensed and unlicensed systems for the BWA development.
