Title: ITU-D Report on Broadband Activities

Abstract:

This presentation will describe the various activities that the ITU-D has undertaken to support the expansion of broadband access to underserved communities around the world. First, Samantha will introduce ITU-D Study Question 20-1/2 and give an update on the status of this Question based on the outcome of the World Telecommunication Development Conference (WTDC 06). Next, the presentation will discuss strategies to promote low-cost Broadband access. Last, it will discuss how administrations and sector members can participate in the work of the Study Group in up-coming ITU-D study cycle of 2006-2010.
